

Jesse Lopez Consulting

Full Services & Capabilities — Knowledge Base

WHO WE SERVE

- Startups and new businesses — from idea to operational
 - Small businesses (1–50 employees) — fixing broken processes and automating manual work
 - Mid-size companies (50–200 employees) — department-level and enterprise-wide transformation
 - Medical, dental, and healthcare practices — RCM, intake, scheduling, and billing automation
 - Legal, retail, and professional service firms — workflow design and tool integration
 - Entrepreneurs with an idea — business setup, systems design, and operational guidance
-

CORE SERVICES

Business Process Audit (Free)

A free 30-minute session where we identify your top bottlenecks and deliver a clear roadmap. No commitment. No pitch deck. Just clarity.

- Map your current workflows
- Identify where time and money are being lost
- Deliver a prioritized fix list

Quick Wins Sprint

Fast fixes that produce immediate ROI — typically completed in 1–2 weeks.

- Eliminate repetitive manual tasks
- Automate simple approvals and notifications
- Connect disconnected tools

Department Sprint

A focused 30–60 day engagement targeting one department (billing, scheduling, HR, operations).

- Full workflow redesign
- Tool implementation
- Staff training included

Full Office Automation

End-to-end process transformation across the entire business.

- System architecture and design
- Multi-department workflow automation
- Integration across all tools and platforms
- Ongoing support during transition

Monthly Care Plan

Ongoing support retainer for businesses that want continuous improvement.

- Monthly process reviews
- System monitoring and maintenance
- Priority support for issues
- Continuous optimization

AI Integration

Practical AI implementation — not hype, just results.

- AI-powered document processing
 - Intelligent routing and triage
 - Chatbot setup for customer-facing teams
 - AI-assisted reporting and insights
-

STARTUP & NEW BUSINESS SERVICES

Business Launch Consulting

You have an idea. We help you build it into an operational business.

- Business model and operations planning
- Tool and technology selection
- Process design from day one
- Vendor and platform recommendations
- Avoid the mistakes most new businesses make in their first year

Operational Setup for New Businesses

Everything a new business needs to run efficiently from the start.

- Email, calendar, and communication setup
- CRM and customer tracking
- Invoicing and payment systems
- Scheduling and appointment management
- Document storage and file organization
- Standard operating procedures (SOPs)

Business Systems Roadmap

For entrepreneurs who need a clear technology and operations plan before they start spending money.

- Current state assessment
 - Tool recommendations by budget
 - 90-day implementation plan
 - Prioritized by what will have the most impact first
-

ADDITIONAL CAPABILITIES

Appointment Reminder & Retention Automation

- Automated SMS and email appointment reminders
- No-show follow-up sequences
- Recall campaigns for lapsed patients or clients
- Confirmation and rescheduling workflows
- Ideal for: medical, dental, legal, and service businesses

VoIP & Business Phone Systems

- Business phone system setup and optimization
- Call routing and auto-attendant configuration
- Voicemail-to-email setup
- Integration with CRM and scheduling systems

Patient & Client Intake Automation

- Digital intake forms replacing paper
- Auto-routing to the right staff member
- Integration with EHR, CRM, or practice management systems
- HIPAA-aware workflow design

CRM Setup & Cleanup

- CRM selection and implementation
- Data migration from spreadsheets or legacy systems
- Workflow automation inside the CRM
- Staff training and adoption support
- Platforms: HubSpot, Salesforce, Zoho, and others

Reporting & Dashboard Automation

- Automated weekly and monthly reports
- Executive dashboards with real-time data
- KPI tracking across departments
- Eliminates manual report building

Document Automation

- Contract generation and routing
- Digital signature workflows
- Auto-population of forms and templates
- Approval routing and audit trails

Workflow Integration (Connect Your Tools)

- Connect existing tools so they talk to each other
- Platforms: Zapier, Make (Integromat), Power Automate
- Common integrations: email + CRM, scheduling + billing, forms + database

Staff Training & Adoption

- System training for non-technical teams
- Process documentation and SOPs
- Change management support
- Ongoing coaching for team leads

Healthcare Revenue Cycle (RCM) Optimization

- Claims submission workflow automation
- Denial management process design
- Prior authorization tracking
- Billing department efficiency audits
- 15+ years experience in healthcare operations

Restaurant & Food Service Operations

- Order and kitchen workflow optimization
 - POS system setup and integration
 - Staff scheduling and communication systems
 - Vendor and inventory process design
 - Customer retention and follow-up automation

FREQUENTLY ASKED QUESTIONS

What size business do you work with?

All sizes — from a brand new business with just an idea, all the way to companies with 200 employees. We tailor the approach to where you are right now.

Can you help me if I'm just starting out?

Yes. We love working with startups and new business owners. We help you build the right systems from day one so you don't have to fix them later.

How long does a typical engagement take?

Quick Wins: 1–2 weeks. Department Sprint: 30–60 days. Full Office Automation: 60–120 days depending on complexity. Startup setup: varies by scope.

Do you work remotely?

Yes. All engagements can be completed remotely. We serve clients across the US.

What does it cost?

Pricing depends on scope. The audit is always free. From there we provide a fixed-scope proposal — no surprise billing. Book a free audit to discuss your situation.

Do I need to buy new software?

Not necessarily. We work with what you have first. If new tools are needed, we recommend the most cost-effective options and help implement them.

How do I get started?

Book a free 30-minute audit at jesselopezconsulting.com/audit.html — no commitment required.

What industries do you specialize in?

Healthcare, dental, legal, professional services, retail, restaurants, and startups. We have deep expertise in healthcare revenue cycle and clinical operations.

Can you integrate with my existing systems?

Yes. We work with most major platforms including Microsoft 365, Google Workspace, QuickBooks, most EHR and practice management systems, CRM platforms, and point-of-sale systems.

I just have an idea — is it too early to talk to you?

No. That is actually the best time. We help you build the right foundation before you spend money in the wrong places.
